notes

12-7-10 bent 2 as per folio with middle bend even to ref. line on board, tubes bent very well, turned out perfect. M.O

12-9-12 Bent 2 more tubes today, as per folio until the end. tubes were from kaiser, and were long to bend. had to run middle program 9 and 10 to finish middle, it was perfectly on reference line on board on both sides. after program 18, started skipping 1 program between each check. (ran 18, then 20, finished at 22) this was done because the first tube we bent was barely in tolerance and we had used all side programs.

12/10/23 bent 1 tube from kaiser (B89391), ran 1-6 CHECK, ..then ran 8 -18 CHECK, tube finished on 1 side..ran prog. 20 on side B,...tube finished nicely!! M.O

12/11/13 tubes NOT from kaiser will finish earlier, use full attention when making decisions about which programs to run, and when to check. JW
